Sleeping Dogs: Zodiac Tournament is DLC for Sleeping Dogs which adds a new area to the game. In this area, Wei Shen travels to an island to participate in a martial arts tournament which is played out in older kung-fu movie style. Most of the fighters exhibit different fighting styles from those which are present in the main game, which makes for an interesting change of pace. All in all, this is a nice little DLC which can be added to the game to provide a little more of a light-hearted distraction from the main story. That being said, it's rather short, so factor that into your price point.. Overall score for the Zodiac Tournament: 9 out of 10 There are many good things in this add-on, like new story, new combat styles, new outfits, new island. This is one of the best things that you can buy for this game. I gave only a 9 because even though there are many new things, they seem to be of somewhat mediocre quality, but still, a great addition.. u8fd9u4e2aDLCu597d!. Zodiac Tournament is a short but sweet extra campaign for Sleeping Dogs.. Side story for SD. Also worth having imho.. Zodiac Tournament is a short but sweet extra campaign for Sleeping Dogs.. Sleeping Dogs: Zodiac Tournament is DLC for Sleeping Dogs which adds a new area to the game. In this area, Wei Shen travels to an island to participate in a martial arts tournament which is played out in older kung-fu movie style. Most of the fighters exhibit different fighting styles from those which are present in the main game, which makes for an interesting change of pace. All in all, this is a nice little DLC which can be added to the game to provide a little more of a light-hearted distraction from the main story. That being said, it's rather short, so factor that into your price point.. One of the best DLC packs I've ever seen for a game.. Nice DLC with a vintage style Chinese movie theme. This is not unlike many other game's DLC where you just blandly fight arena after arena of enemies. It actually has its fair bit of storyline with different styles of matches with twists to spice things up a bit. The graphic style is a bit shady and is quite different from the main game, but for me it was ok. It lasts about an hour and at the end you are rewarded with two unique costumes which cause extra melee damage when you wear them. Before buying the DLC I had once wandered off to Zodiac Island, and I wondred why it was deserted, yet there in the game. Would recommend it to buy if its on sale, because it is quite short compared to its price tag.
